 Rubber Coated Miniature Clamp

## Applications

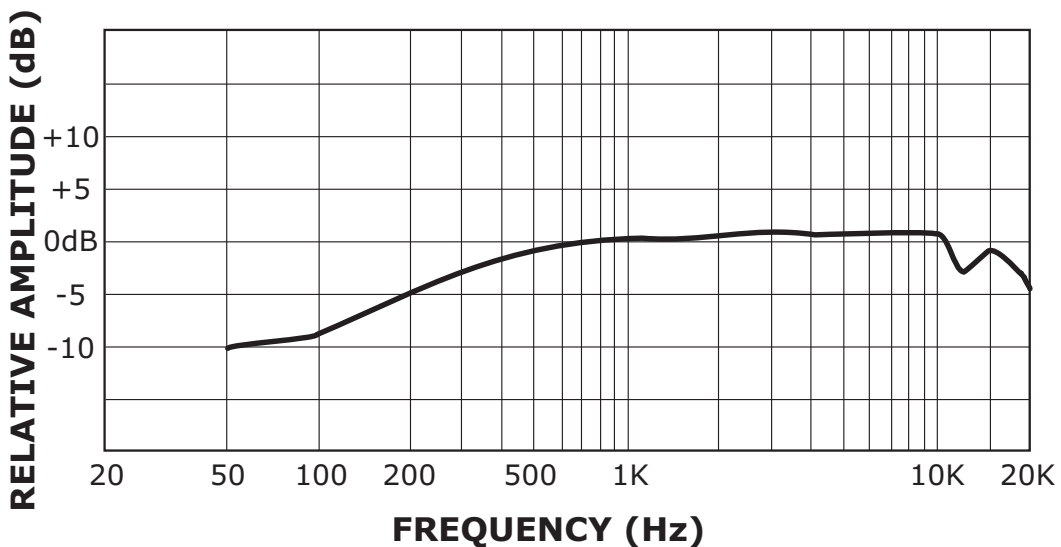

Wind Instruments  
 Drums and Percussions

<b>Type:</b>	Miniature Condenser Microphone
<b>Polar Pattern:</b>	Cardioid
<b>Sensitivity:</b>	-65 dBV/ubar
<b>Frequency Range:</b>	70 - 16.000 Hz
<b>Impedance:</b>	600 ohm
<b>Connector:</b>	3-Pin Male XLR
<b>Size:</b>	13 mm max Dia x 160 mm
<b>Net Weight:</b>	45 g
<b>Power Supply:</b>	From 18 to 48 V DC Phantom

The **XC98** is a condenser clip-on microphone that has been designed both for wind instruments and percussions, including toms and snare drums. Its Cardioid polar pattern reduces interferences from neighboring instruments and stage monitors to a minimum. A rubber coated clamp ensures easy attachment to the bell of horns and to drums mechanics, and the adjustable gooseneck always allows precise microphone alignment.

L'**XC98** è un Microfono a Condensatore miniaturizzato con supporto a clip disegnato sia per strumenti a fiato che per percussioni, inclusi toms e rullanti. La clip rivestita in gomma garantisce un sicuro fissaggio sia sulle campane degli strumenti a fiato che sulle meccaniche delle percussioni. Il braccetto flessibile consente sempre un corretto orientamento del microfono.

New materials and design are introduced into existing products without previous notice.  
 Present systems may differ in some respects from those presented in this brochure.
